

N 05 - HOW WE WORK

Our work process.

Five clear steps, with defined timelines, from the first conversation to the delivered space. No surprises.

2-4

weeks on average

That's what a typical project takes from brief approval to final deliverables. The initial briefing moves at your own pace.

01 Briefing - let's organize your ideas

At your pace

We send you an online questionnaire to organize your requirements, learn your tastes and gather references from projects that inspire you. The more you tell us, the more precise the design will be.

02 Survey & virtual model

3 days

We build a virtual model with all the real measurements of the space. We request plans and run an architectural survey to verify dimensions. International project? We take measurements from the photos and sketches you send us.

03 Layout

2 to 5 days

We present diagrams with options for space and furniture layout. We evaluate them together in a meeting and choose the path forward.

04 Design

7 to 14 days

We present the design proposal in a virtual model with real measurements. We review the idea and adjust it to your suggestions until we reach the desired result and an approved project.

Final deliverables

2 to 7 days

Once the project is approved, we prepare everything you need to make it real:

- High-quality views of your project
- PDF plans: layout, sections and elevations
- Custom furniture & materials list

GOOD TO KNOW

Service	100% remote - we design with you, wherever you are
Payment	50% to start - 50% on approved design
Response	We reply within 24 hours
Track record	200+ projects delivered across 25+ countries

Fill out your brief and let's start.

The first step takes just a few minutes. We reply within 24 hours.
